

Prayer Canvassing

Go door to door in the community around your church, getting to know people and offering to pray with/for them. Make sure to write down people's prayer requests and then check back with them in a couple of weeks. This can be an excellent way to build friendships with people and connect with your praying church family. This suggested script and ideas for follow-up are helpful.

Suggested Canvass

Hi, my name is _____ and this is my friend(s) _____. We are with the _____ Church, and we realize that many terrible things are happening in our world, but we also realize that there are things happening in the lives of our neighbors right here in _____ (name of your town). So we were wondering if you and/or your family had anything that we could pray with you about?

Follow-up

If the person at the door is willing to pray with you, ask them if you can come back next month to see how the Lord answered their prayer. Even if they didn't have any specific requests, ask if you can come back next month, or sometime in the future to pray with them again.

Names/ Address/ Requests

Keep a record so that you can continue to pray for their needs and follow-up with them the next time you visit.
